BEAN BAG POSITIONERS

SUPERIOR PATIENT POSITIONING

POSITIONING AS SIMPLE AS 1-2-3-4

1. Place the Bean Bag on the table, smooth out beads, then place patient in position
2. Mold the Bean Bag around the patient providing optimal access to the surgical site
3. Add a suction line until desired firmness to hold the patient in place
4. Click the valve to restrict air-flow and attach the safety clip before removing suction line

100% Latex Free • Silicone Free • Repels Betadine Staining

MADE IN U.S.A
