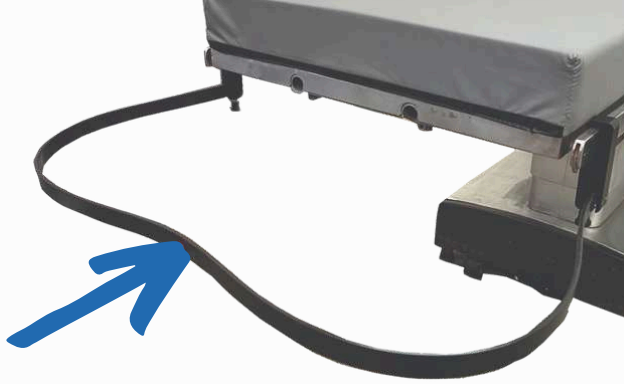
UROCATCH™

UROLOGY DRAIN FRAME + BAGS



A versatile and flexible urology drain frame designed for seamless integration with any U.S. surgical table side rail. The integral clamps allow for quick, secure attachment with an easy drop-over design and thumbscrew tightening. Its flexible band provides forgiveness while maintaining its original “U” shape, accommodating most urology drain bags for reliable fluid management in the OR.

- Universal Fit – Attaches to any U.S. surgical table side rail
- Flexible & Durable – Maintains shape while allowing movement
- Compatible with Most Drain Bags – Use with DSC-UC32A non-sterile bags, DSC-UC31A sterile drain bags, or other urology drain bags
